## **DRILLING OF GOLD TARGETS AT COBAR COMPLETED**

The drilling programme targeting strong gold anomalies within exploration licences Tindarey EL 6415, Pooraka EL 6413 and Mt Barrow EL 6416 near Cobar has been completed.

In spite of interruptions from heavy rain, the drilling undertaken by Chief Drilling of Orange and under the management of Dr Pieter Moeskops, GM Technical of Robust Resources Limited was completed on time and under budget.

Ten RC percussion holes of 100 metres in length each have been drilled generating 1,000 samples (1.1 tonnes in weight) which have been delivered to the ALS laboratory in Orange. The samples will be assayed for gold and silver, along with selected base metal and indicator elements.

The results are due in 2 to 3 weeks time.

Interests: **Ausmon Resources Limited:** earning 85% under a committed work programme to the tenement year ending May 2011.

**Robust Resources Limited:** Operator and 15% free carried until tenement year ending May 2011

John Wang  
Executive Director/Secretary
